Western Theater 6mm/10mm Reference Chart

Across A Deadly Field - 10mm Regimental Game Scales

10mm Ground Scale = one inch equals approximately 100 to 120 yards. One Turn = 30 minutes, One Infantry fig = 60 men, One cavalry fig = 30 men One Gun = one battery with each crew figure equaling one section.

<u> Across A Deadly Field - Game Turn Overview</u>

In one turn, each side will have an <u>Active</u> and a <u>Reactive</u> portion of the turn. The side with the "initiative" will be active first with the other side reacting.

- 1. The active units can perform any two concurrent actions. It can fire and/or move, fire twice, move twice, charge, reform from disorder, change formation, or attempt to rally. If routed, it must run and then try to rally.
- 2. The opposing non-active units may react ONCE to any fire or movement that can be seen or is within 2 inches with a fire, a formation or facing change, reform, a rally attempt or countercharge or disengage. After doing its one reaction, a unit may still do desperation fire if charged.
- 3. After one side has completed all actions, the other side now is active with two actions per unit, with the previous active units now reacting as above.

The Basic Morale Point (BMP) and The Modified Morale Point (MMP)

Each unit has a BMP based on its training and combat experience as so: BMP = 3, 4, 6 Elite, unit with a solid record of proven combat experience.

BMP = 4, 6, 8 Veteran, well trained unit with some combat experience. **BMP = 5, 7, 10** $\overline{Trained}$, unit with some training, but no combat experience. BMP = 6, 9, 12 Green, unit with minimal training and no combat experience. Above **BMPs** are for: No stand lost One stand lost (3 stand units) Last Stand Artillery batteries have their **BMP** increased by "+3" per section **previously lost**.

Modified Morale Point (MMP) -- When a unit's BMP is modified by its situation it becomes its **MMP**, which is then used for all *morale checks* or *rally attempts*.

MMP = BMP + unit morale level + two best & two worst situational modifiers PLUS any applicable Fire Combat Results calling for a morale check (FCR/MC).

A unit's morale level is: good order (+0), disorder(+2), shaken (+4) or routed (+6) In any situation, a unit can never have an MMP better than "0" or worse than "12".

Good Situational Morale Modifiers To a Unit's MMP use the "best" two If unit is adjacent (1/2 inch) to a leader.....leader's LB Unit is behind: hasty works / light works / heavy works.....-1/-2/-4 Unit is 9 or more inches behind intervening friendly units.....-6 Unit is charging /mounted cavalry is charging.....-1/-2 Unit is in or directly behind light/heavy cover (does not apply if charging).....-1/-2 Unit is supported by adjacent non-shaken unit(s)...(- 1 per unit)-2 max

Bad Situational Mora	ale Modifiers To a Unit	's MMP	use the "worst	<u>" two</u>
*Enfilade Fire	Morale Check from			
*Unlimbrd Arty	fire from side (+2/	+1)full flank (-	+3/+2)rear (+4	1/+3)
*All colums & limbro	d artyside fire (+2/-	+1)front fire (-	+3/+2)rear (+	4/ +3)
*All linesf	rom partial flank (+2/	+1)full flank (-	+3/+2)rear (+	4/ +3)
Unit is within two i	nches (6/10mm figs,	one inch) of an	enemy unit	+1
Per each regiment of	or leader "eliminated" f	rom the same bi	igade+1 (m	ax +2)
Regiment is a merge	ed regiment (Use origin	al BMP of best u	nit) with a	+2
Unit is charged by inf	antry/cavalry on partial	flank: (+2/+3)fu	ıll flank or rear: (+	4/+6)

Basic Regimental Formations From one to -53 Regt in Battle Line (Stands touching) Regt in Extended Line nt as Skirmishers up to one stand apart

Across A Deadly Field - Abbreviations

FP-Firepower Points. FCR/MC-Fire Combat Results/Morale Check. BMP-Basic Morale Point. MMP-Modified Morale Point. MC-Morale Check. DRM-Die Roll Modifier LB-Leadership Benefit PBF, SR, NR, LR - Point Blank, Short, Normal or Long Range Fire. MC-Morale Check, CMM-Charge Morale Modifier, LOS-Line of Sight 1MC or 2MC - Morale Checks with +1 or +2, to a unit's MMP. 1H, 2H, 3H ... number of hits = figs/arty sections lost and +MC. 1D6, 2D6, 3D6, etc. - Number of six sided dice (D6) to be rolled.

/hen a Unit is Required to take a Morale Check (MC

- When required by a FCR/MC as a (MC, 1MC or 2MC) fire combat result, or a figure loss with a +MC per each "hit".
- If it was within one inch (100 yards) to a unit that was eliminated, a leader that was killed, or by a routing unit.
- If defending against a charge prior to Charge Impact Resolution as the attacker moves within one inch.

Morale Check and Rally Attempt Results

Unit rolls 2D6 attempting to match or roll higher than its current **MMP** with immediate results as below -- same for *Rally*. Rolls a natural "2" - <u>Elites</u> go *shaken*, all others are <u>routed</u> Rolls a natural "3" - <u>Elites</u> go into <u>disorder</u>, all others <u>shaken</u> Rolls 5 or more less than MMP -- Drop 2 morale levels* Rolls 1 to 4 less than MMP -- Drop 1 morale Level* Rolls exactly its MMP -- No morale change, unit stays same. Rolls 1 to 4 higher than its MMP - Improve 1 morale level Rolls 5 or higher than MMP -- Improve 2 morale levels Rolls a natural "12"-- Good order and recover a figure or gun Unless routed, infantry, arty, and dismnted cavalry fall back

in inches by what it failed by, mounted cavalry twice that.

Infantry Charge Procedure and Charge Impact Resolution -- Active Player Chooses Order of Resolution

- <u>Declare Charge Target/Advance Charging Units</u> -- A charging unit(s) uses one action and has a required *charge bonus* (**CB**) roll of half its routed movement. Charge goes into disorder at 1/2 of total charge distance for *green* or *trained* troops and 1/2 of **CB** for *elites* or *vets*.
- Resolve any enemy reaction fire against the charging unit(s). -- As the charging units gets within range of any enemy unit(s), those unit (s) may take one reaction fire with immediate results, including morale checks. Defending units get only one full reaction fire during the opposing side's Active Turn, with the exception of a 1D6 desperation fire (DF) if different units move into short range. Do note that against a charge, <u>IF</u> the defender wants to do his reaction fire as a point blank fire or close canister fire he must first do <u>Step 3</u> the defender's pre-impact morale check -- likewise, for any **DF**. A defender can only fire once -- reaction fire or **DF** -- against any one unit.
- Defender's Pre-Impact Morale Check -- When the charging unit is within one inch from the defender, he takes an immediate a morale check.
- Charge Impact Resolution -- If the charging units have not been stopped by fire, proceed to charge impact resolution. Calculate the Final Impact Values (FIV) of the lead units in contact as shown below, with the opposing lead unit's MMP modified by its CMM and any Good/Bad Situational Morale Modifiers as below. FIV only - lead charging unit counts all contiguous units for support (-2 max to MMP). FIV = 2D6 + (lead impact unit's # of figs) - (lead impact unit's MMP)

 Equal FIV: Infantry melee - Assume both sides are in contact and do a simultaneous "melee fire" using (FPs + 5D6) see rules

 Win by 1: Attacker stops short. Roll 1D6 for distance in half inches.

 Win by 2 through 4: All losing units fall back that many inches* and all losing units lose one* figure and are in disorder.

 Win by 5 through 7: All losing units fall back that many inches* and all losing units lose two* figures and are shaken.

 Win by 8 through 11: All losing units fall back that many inches* and all losing units lose three* figures and are routed.

 Win by 12: All losing units - attacker or defender -- surrender and are removed from the game.

 *If "loser" was attacking infantry reduce fall back distance by one just reduce figure loss by one and morale level drop is limited to shaker.

*If "loser" was attacking infantry reduce fall back distance by one inch, reduce figure loss by one, and morale level drop is limited to shaken.

All involved units are now in disorder. If the attackers were the winners, they may advance in disorder, generally following the defender at up to one inch less than he fell back. If the attackers won, they may advance and impact a new enemy unit if desired, repeating the Charge Procedure. However, if the defender was the winner, he does not advance, but continues to hold his position.

Fire Combat Results (FCR): MC is a Morale Check. A 1MC or 2MC is a morale check, with a +1 or +2 to the unit's MMP.

1H equals one hit -- lose a figure or a gun section -- <u>in addition</u> to the **2MC** result as noted above.

2H, 3H, or 4H equals that number of hits -- that many figs or gun sections lost-- and a +2, +3, or +4MC per the number of hits.

Pass Through Fire - Extends 1 inch for infantry fire, 2 inches for artillery. Roll again with one die less for each successive target.
